

Harmonization

- The white window stands out of the bright blue colored exterior. A well balanced of outward appearance can be produced by selecting the white entrance door.

- The aluminium entrance will be an accent to an elegant residence with white exterior and matching window color, presenting a superior atmosphere.

A warm and composed residence is producing additional
composure with the use of dark entrance door.

Bright beige exterior produces a gorgeous and
refreshing appearance. The brown entrance door brings
calm atmosphere to the entrance.

■ SCK Pitatto Key ■ SCK Pocket Key

Home entrance doors with convenience and comfort
Smartly designed digital lock system embedded handle.

Battery-powered type
No wiring work and
simple maintenance

For both inward
and outward
opening door

Single Touch Control “Pitatto Key”

After pushing Handle Button, locking and unlocking action can simply be done by touching the card key on the door handle.

Single Touch Control “Pocket Key”

Locking and unlocking can be done by all three way card key, sticker key, remote control.

Pitatto Key Pocket Key

Card Key

It is unnecessary to take the card-key out of the wallet as it is a non-contact type IC card.

Pitatto Key Pocket Key for convenience.

Sticker Key

Sticker Keys can be stuck on personal accessories

Pocket Key

As a Remote Control

By having a “Pocket Key” with you, the lock can be done or undone by pressing the button on the handle. It can also be used as a remote control.

Pocket Key

Built-in Key

A “Pocket Key” has a key built-in when power failure, It could open to use a key.

SCK Pitatto Key ■ SCK Pocket Key

Simple and Sophisticated Handle

Handle and lock integrated with simple yet sophisticated design. The handle has a bold arching design that emphasises the sharp look. During the LOCKING or UNLOCKING action, the slit on the handle emits a LED light to perfect its beautiful design. Three high grade metallic color options for the handle are available.

Top End Security System

Working with two lock with a single-action, when you are inside or outside your house. After getting home or leaving home, a detachable thumbturn is effective against possible crimes (smashing a glass door).

It is a single-action to lock with turning upper thumbturn from inside your house.

AA alkaline batteries 4pcs.
It can be operated for around a year.

Autmatically the two keys are locked by an interlock system.

Relock Functions

As a part of an enhanced security system, a “picking prevention system”, for example if a key is fraudulently unlocked, it would lock again when the door is not opened within 50 sec. The “glitch prevention system” will prevent a careless mistake, and there is the “automatically lock system” which is very convenient.

For both Inward and Outward opening door

You can choose it for inward or outward opening door.

*Inward opening type will be released in April, 2017
